

AUTHORISED RACKET COVERINGS: 1 JULY 2001 – 30 JUNE 2002

List No. 22: also on the Internet page «<http://www.ittf.com/mat/cov.html>»

Information that did not appear in the previous list is shown in *Italics*.

Dark sponge (black, blue, brown, green, purple, red) should not be used under translucent red coverings (most red coverings are translucent). It is the player's responsibility to use a racket covering which appears bright red, and the use of a dark sponge under a translucent top sheet is likely to make the rubber illegal. Even if racket coverings appear in this List without reference to sponge, the Law 2.4.3. governs the use of sponge.

Legend:

Rubber name	Has been too shiny; please check carefully and contact referee when in doubt.
[R] or [B]	Indicates that that brand name is available in only red or black respectively.
Long	Under 'Type' is used where the aspect ratio (= pimple height/pimple diameter) is larger than 0.9.
‡	Indicates a version available with a textile reinforcement, intended to be used without sponge.

While it is our intention in publishing this list to describe what may be used in International play, we cannot guarantee that everything listed here will continue to be authorised. From time to time we may find that a sample has changed in its manufacture. If we are unable to persuade the manufacturer to make the necessary change we have no alternative but to remove the authorisation. When we do that an announcement will be printed in the ITTF Bulletin and the Internet list on «<http://www.ittf.com/mat/cov.html>» will be updated. After publishing this list it will appear on the Internet. This Internet version will then be updated for printing errors and omissions, but no new rubbers will normally enter this list - as usual.
